## Explanatory Note

The Company is filing this Amendment No. 1 to its January 28, 2026 Current Report on Form 8-K solely to furnish an amended version of the earnings release (the "Amended Earnings Release") originally furnished on January 28, 2026 ("Original Earnings Release") reflecting the impact of incremental non-cash amortization expense and a reclassification between current and non-current liabilities.

The Amended Earnings Release reflects an increase of \$4.1 million in amortization expense for the quarter and year ended December 31, 2025 and a \$20.9 million reduction in current portion of long-term debt, with a corresponding increase in long-term debt. Other than the resulting impacts on the Company's Consolidated Statements of Income, Balance Sheet, and Statement of Cash Flows, no other changes have been made to the Original Earnings Release.

### Section 2 - Financial Information

#### Item 2.02 Results of Operations and Financial Condition.

On February 4, 2026, the Company posted the Amended Earnings Release to the Investor Relations section of its website, as described in the Explanatory Note above. The full text of the Amended Earnings Release is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

The information in this Item 2.02 and Exhibit 99.1 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference into any filings under the Securities Act of 1933, as amended.

**DELUXE REPORTS FOURTH QUARTER AND FULL-YEAR 2025 RESULTS  
PROVIDES FULL YEAR 2026 OUTLOOK**

- Full year reported revenue increased 0.5%, while comparable adjusted revenue increased 1.1%.
- Full year net income was \$82.2 million, improving from \$52.9 million in 2024, on revenue growth and both lower SG&A expense and restructuring spend.
- Comparable adjusted EBITDA increased 6.2% to \$431.5 million for the full year.
- Full year GAAP diluted EPS was \$1.80 versus \$1.18 in 2024; comparable adjusted diluted EPS improved 10.7% to \$3.61.
- 2025 cash from operating activities was \$270.6 million; free cash flow increased \$75.3 million to \$175.3 million.
- Total debt reduced by \$73.7 million, while net debt reduced by \$76.2 million.

**Minneapolis – January 28, 2026** – Deluxe (NYSE: DLX), a trusted Payments and Data company, today reported operating results for its fourth quarter and year ended December 31, 2025.

“We grew revenue organically, expanded each of our core earnings metrics, and deployed significantly increased free cash flow to lower our net debt and leverage ratio ahead of schedule in 2025, highlighting our execution discipline,” said Barry McCarthy, President and CEO of Deluxe. “Each of our Payments and Data businesses expanded their margins and the 10% combined full-year growth rate accelerated our revenue mix migration toward these attractive growth markets. The strength of our ongoing execution builds our optimism for 2026.”

“Beyond the strong expansion of adjusted EBITDA and double-digit growth of adjusted EPS during the year, we were particularly pleased to drive improved earnings quality toward further optimizing our balance sheet while continuing to invest in core growth initiatives,” said Chip Zint, Senior Vice President and Chief Financial Officer of Deluxe. “We finished 2025 with an improved leverage position including lowered debt and strengthened liquidity. We delivered targeted 2026 free cash flow levels ahead of schedule, and our results reinforce our strong momentum to deliver continued earnings expansion into 2026.”

**DELUXE CORPORATION**  
**RECONCILIATION OF GAAP TO NON-GAAP MEASURES**

(in millions)  
(Unaudited)

The company has not reconciled the adjusted EBITDA, adjusted diluted EPS, or free cash flow outlook for 2026 to the directly comparable GAAP financial measures because the company does not provide outlook guidance for the reconciling items between net income, adjusted net income, and adjusted EBITDA, and some of these reconciling items affect cash flows from operating activities. Due to the significant uncertainty and variability associated with certain forward-looking reconciling items such as asset impairment charges, restructuring and integration expense, gains and losses on sales of businesses and long-lived assets, and certain legal and environmental expenses, a reconciliation of the outlook for these non-GAAP financial measures to the corresponding GAAP measures is not available without unreasonable effort. The potential impact of these reconciling items is substantial and, based on past experience, could be material.

Management does not consider the non-GAAP measures presented below to be substitutes for GAAP performance measures, but believes that they are useful performance measures that should be considered in addition to GAAP performance measures.

**EBITDA, ADJUSTED EBITDA, AND ADJUSTED EBITDA MARGIN**

Management believes that EBITDA, adjusted EBITDA, and adjusted EBITDA margin are metrics that provide meaningful insight into the company's operating performance. These measures exclude the impact of interest expense, income taxes, depreciation and amortization, and certain other items that may vary for reasons unrelated to current period operating performance. Management uses these measures to evaluate operating results, facilitate period-to-period and peer comparisons, and inform strategic decision-making aimed at enhancing performance. Additionally, management believes that growth in adjusted EBITDA and adjusted EBITDA margin reflects improvement in the company's operating efficiency and may be indicative of increased enterprise value. It is important to note that management does not consider EBITDA or adjusted EBITDA to be measures of cash flow, as they do not account for certain cash requirements such as interest, income taxes, debt service payments, or capital investments.

**ADJUSTED DILUTED EPS AND COMPARABLE ADJUSTED DILUTED EPS**

Adjusted diluted EPS is calculated by excluding the impact of certain non-cash items and other items that may not be indicative of core operating results for the current period. Comparable adjusted diluted EPS also excludes the impact of business exits. By removing these effects, these measurements offer a perspective on the underlying performance of the business and facilitate more consistent comparisons across reporting periods. Management uses adjusted diluted EPS and comparable adjusted diluted EPS as key metrics to evaluate operating results, assess performance trends, and inform strategic decision-making. These measures assist both management and investors in analyzing current period results and in assessing potential future performance by focusing on earnings generated from ongoing operations. It is important to note that while these measures exclude certain items to enhance comparability, these items may recur in future periods and the amounts recognized may vary significantly.

Comparable Adjusted Diluted EPS (B) / (C)	\$0.89	\$0.84	\$3.61	\$3.26

<sup>(1)</sup> The tax effect of the pretax adjustments considers the tax treatment and related tax rate(s) that apply to each adjustment in the applicable tax jurisdiction(s). Generally, this results in a tax impact that approximates the U.S. effective tax rate for each adjustment. However, the tax impact of certain adjustments, such as share-based compensation expense, depends on whether the amounts are deductible in the respective tax jurisdictions and the applicable effective tax rate(s) in those jurisdictions.

<sup>(2)</sup> Weighted-average dilutive shares may differ from the GAAP EPS calculation due to differences in the amount of dilutive securities in each calculation.

**COMPARABLE ADJUSTED REVENUE, COMPARABLE ADJUSTED EBITDA, AND COMPARABLE ADJUSTED EBITDA MARGIN**

Management considers the measures of comparable adjusted revenue, comparable adjusted EBITDA, and comparable adjusted EBITDA margin, which exclude the impact of business exits, to be important indicators for assessing, evaluating, and improving the company's performance. By excluding the effects of business exits, management can evaluate comparable results on a year-over-year basis. These measures allow management to compare operational performance across fiscal periods when acquisitions or business exits occur.

**NET DEBT**

Net debt is calculated by subtracting cash and cash equivalents from total debt. One limitation associated with using net debt is that by subtracting cash and cash equivalents, it may imply that management intends to use these funds to reduce outstanding debt. Additionally, net debt can suggest that the company's debt obligations are lower than what the most comparable GAAP measure indicates. Despite these limitations, management believes that net debt is a valuable metric for assessing the company's financial leverage and overall balance sheet health. It provides a measure of the company's debt burden considering the funds available to offset debt obligations.

	December 31, 2025	December 31, 2024
Total debt	\$1,429.4	\$1,503.1
Cash and cash equivalents	(36.9)	(34.4)
Net debt	<u>\$1,392.5</u>	<u>\$1,468.7</u>

**FREE CASH FLOW**

Free cash flow is calculated as net cash provided by operating activities minus purchases of capital assets. Management considers free cash flow to be an important indicator of cash available for servicing debt and for shareholders, after making necessary capital investments to maintain or expand the company's asset base. One limitation of using the free cash flow measure is that not all of the free cash flow is available for discretionary spending. The company may have mandatory debt payments and other cash requirements that must be deducted from available cash. Despite this limitation, management believes that the measure of free cash flow offers an additional metric to consistently compare cash generated by business operations. It also provides insight into the cash flow available to fund various items such as dividends, mandatory and discretionary debt reduction, acquisitions or other strategic investments, and share repurchases.
