NEWS RELEASE

DELUXE REPORTS FOURTH QUARTER 2009 RESULTS

- Diluted EPS of \$0.59; adjusted EPS of \$0.70 grows 3% vs. prior year; strong revenue at high end of outlook
- Provides improved 2010 outlook; projecting strong EPS and operating cash flow performance
- Declares regular quarterly dividend

St. Paul, Minn. — Deluxe Corporation (NYSE: DLX) reported fourth quarter adjusted diluted earnings per share (EPS) from continuing operations of \$0.70 compared to \$0.68 in the prior year fourth quarter. Adjusted EPS for both periods excludes the impact of restructuring-related costs, and for 2009, also excludes the impact of transaction-related costs associated with recent acquisitions. Adjusted EPS for 2008 also excludes an asset impairment charge. Operating results were better than expected for the current period due to favorable shifts in product mix and cost reduction and containment initiatives.

Reported diluted EPS was \$0.59 on net income of \$30.5 million in the fourth quarter 2009 and \$0.54 on net income of \$27.9 million in the comparable quarter of 2008. The 2009 period included restructuring and related costs of \$7.3 million associated with the planned closure of a call center, further consolidation in the sales and marketing organization and other cost reduction initiatives, and \$1.4 million of transaction-related expenses. Results for 2008 included restructuring and related costs and asset impairment charges of \$6.5 million and a diluted loss per share from discontinued operations of \$0.05.

“We delivered a very strong quarter despite continued challenges in the economic environment,” said Lee Schram, CEO of Deluxe. “Although revenue from holiday-related products was below our expectation, revenue from checks and forms was particularly strong later in the quarter helping us deliver the top end of our revenue outlook while driving strong cash flow and EPS growth. On the strategic front, we made solid progress during the quarter integrating our recent acquisitions and we signed a new, exclusive revenue sharing agreement with BancVue which brings new deposit products to our financial institution customers.”

Fourth Quarter Performance

Revenue for the quarter was \$340.3 million compared to \$364.9 million during the fourth quarter of 2008. Small Business Services revenue was \$12.7 million lower than the comparable 2008 quarter driven primarily by continued economic softness. Financial Services revenue was down \$7.4 million from the 2008 quarter and Direct Checks revenue decreased \$4.5 million, both due to lower order volumes.

Gross margin was 62.8 percent of revenue compared to 62.6 percent in 2008. The benefit of our cost reduction initiatives was partially offset by increased performance-based compensation expense and material and delivery rates.

Selling, general and administrative (SG&A) expense decreased \$12.2 million in the quarter compared to 2008. Increased performance-based compensation expense was more than offset by benefits from cost reduction and containment initiatives. As a percent of revenue, SG&A decreased to 44.8 percent from 45.1 percent in 2008.

Operating income was \$55.8 million compared to \$60.4 million in the fourth quarter of 2008 as a result of the factors previously discussed, as well as increased restructuring and transaction-related costs in 2009. Operating income was 16.4 percent of revenue compared to 16.6 percent in the prior year.

Reported diluted EPS from continuing operations decreased \$0.01 as lower operating income was partially offset by reduced interest expense and a lower effective tax rate than in 2008 due to non-recurring benefits.

Fourth Quarter Performance by Business Segment

Small Business Services revenue was \$206.0 million versus \$218.7 million in 2008. The decline was due to soft economic conditions, primarily in the sales of holiday products, checks and forms. These reductions were partially offset by revenue contributions from acquisitions and a \$2.2

million benefit from the effect of Canadian exchange rate changes. Operating income in 2009 decreased to \$23.6 million from \$27.1 million in 2008. Restructuring and transaction-related costs and asset impairment charges were \$4.1 million higher in 2009.

Financial Services revenue was \$94.9 million compared to \$102.3 million in 2008. The decline was primarily due to lower order volumes caused by check usage declines and a weak economy. The benefit of price increases implemented in the third quarter of 2009 more than offset the impact of continued pricing pressure. Operating income in 2009 decreased to \$17.8 million from \$20.6 million in 2008.

Direct Checks revenue was \$39.4 million compared to \$43.9 million in 2008. Fourth quarter order volume was down due to the continued decline in check usage and a weak economy which is negatively impacting consumer check writing and our ability to sell additional products and services. Operating income was \$14.4 million, or 36.5 percent of revenue, compared to \$12.7 million or 28.9 percent of revenue in 2008. Restructuring-related costs were \$1.3 million lower in 2009 than in 2008.

Total Year Cash Flow Performance

Cash provided by operating activities for 2009 totaled \$206.4 million, an increase of \$7.9 million compared to 2008. Higher contract acquisition and severance payments were more than offset by significantly lower performance-based compensation and interest payments.

Business Outlook

The Company stated that for the first quarter of 2010, revenue is expected to be between \$320 and \$335 million, and adjusted and diluted EPS are both expected to be between \$0.57 and \$0.64. For the full year, revenue is expected to be between \$1.275 and \$1.335 billion with the upper end reflecting only a cautious small improvement in the economy, and adjusted and diluted EPS is expected to be between \$2.35 and \$2.65. The Company also stated that it expects operating cash flow to be between \$180 million and \$200 million in 2010 and capital expenditures to be approximately \$40 million.

“As we enter 2010, our portfolio is becoming better positioned to deliver sustainable future revenue growth as hopefully the broader economy recovers,” Schram stated. “This is driven by a new national financial institution check win and other opportunities, exciting new deposit product offerings, enhanced internet capabilities, and our new business services offers. We will not take our eyes off of cost reductions and process improvements, but our primary focus is shifting to revenue growth.”

Quarterly Dividend

The Board of Directors of Deluxe Corporation declared a regular quarterly dividend of 25 cents per share on all outstanding shares of the Company. The dividend will be payable on March 1, 2010 to shareholders of record at the close of business on February 15, 2010. The Company had 51,189,452 shares outstanding as of January 25, 2010.

Conference Call Information

Deluxe will hold an open-access teleconference call today at 11:00 a.m. EST (10:00 a.m. CST) to review the financial results. All interested persons may listen to the call by dialing 1-866-761-0748 (access code 73142795). Forward-Looking Statements

Statements made in this release concerning the Company’s or management’s intentions, expectations, or predictions about future results or events are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements reflect management’s current expectations or beliefs, and are subject to risks and uncertainties that could cause actual results or events to vary from stated expectations, which variations could be material and adverse. Factors that could produce such a variation include, but are not limited to, the following: the impact that a further deterioration or prolonged softness in the economy may have on demand for the Company’s products and services; further declines in the Company’s market capitalization which could trigger additional non-cash asset impairment charges; the inherent unreliability of earnings, revenue and cash flow predictions due to numerous factors, many of which are beyond the Company’s control; declining demand for the Company’s check and check-related products and services due to increasing use of alternative payment methods; intense competition in the check printing business; continued consolidation of financial institutions and/or additional bank failures, thereby reducing the number of potential customers and referral sources and increasing downward pressure on the Company’s revenues and gross margins; risks that the Small Business Services segment strategies to increase its pace of new customer acquisition and average annual sales to existing customers, while at the same time increase its operating margins, are delayed or unsuccessful; risks that the Company’s recent acquisitions do not produce the anticipated results or revenue synergies; risks that the Company’s cost reduction initiatives will be delayed or unsuccessful; performance shortfalls by the Company’s major suppliers, licensors or service providers; unanticipated delays, costs and expenses in the development and marketing of new products and services, including new e-commerce, customer loyalty, fraud monitoring and protection and business services, and the failure of such new products and services to deliver the expected revenues and other financial targets; and the impact of governmental laws and regulations. The Company’s cash dividends are declared by the Board of Directors on a current basis, and therefore may be subject to change. Our forward-looking statements speak only as of the time made, and we assume no obligation to publicly update any such statements. Additional information concerning these and other factors that could cause actual results and events to differ materially from the Company’s current expectations are contained in the Company’s Form 10-K for the year ended December 31, 2008.

The table below is provided to assist in understanding the comparability of the Company’s results of operations for the quarters ended December 31, 2009 and 2008 and our outlook for 2010. The Company’s management believes that adjusted earnings per share (EPS) is a useful financial measure because certain items during 2009 and 2008 (asset impairment charges, restructuring and related costs, net gain on repurchases of debt, and transaction-related costs) impact the comparability of reported net income. The presentation below is not intended as an alternative to results reported in accordance with generally accepted accounting principles (GAAP) in the United States of America. Instead, the Company believes that this information is a useful financial measure to be considered in addition to GAAP performance measures.

⁽¹⁾ Earnings per share amounts for continuing operations, discontinued operations and net income are calculated individually and may not sum due to rounding differences.

⁽²⁾ Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) and Adjusted EBITDA are not measures of financial performance under generally accepted accounting principles (GAAP) in the United States of America. We disclose EBITDA and Adjusted EBITDA because we believe they are useful in evaluating our operating performance compared to that of other companies in our industry, as the calculation eliminates the effects of long-term financing (i.e., interest expense), income taxes, the accounting effects of capital investments (i.e., depreciation and amortization) and in the case of Adjusted EBITDA, certain items (i.e., asset impairment charges, restructuring and related costs, and transaction-related costs), which may vary for companies for reasons unrelated to overall operating performance. In our case, depreciation and amortization of intangibles, as well as interest expense, were significantly impacted by the acquisitions of New England Business Service, Inc. (NEBS) in June 2004 and Hostopia.com Inc. in August 2008. Additionally, interest expense in previous years was significantly impacted by borrowings used for our share repurchase programs, and certain transactions in 2009 and 2008 impacted the comparability of reported net income. We believe that measures of operating performance which exclude these impacts are helpful in analyzing our results. We also believe that an increasing EBITDA and Adjusted EBITDA depict increased ability to attract financing and an increase in the value of our business. We do not consider EBITDA and Adjusted EBITDA to be measures of cash flow, as they do not consider certain cash requirements such as interest, income taxes or debt service payments. We do not consider EBITDA or Adjusted EBITDA to be substitutes for operating income or net income. Instead, we believe that EBITDA and Adjusted EBITDA are useful performance measures which should be considered in addition to GAAP performance measures. EBITDA and Adjusted EBITDA are derived from net income as follows:

	Quarter Ended Dec. 31,
